

Easy Guacamole

1 large avocado

Juice of 2 limes

Remove avocado fruit from peel. Mash with fork and stir in the juice from 2 limes. Easy, peasy!!!

If you have more time you can also stir in $\frac{1}{4}$ c. finely chopped tomato, 1 T. finely chopped sweet onion and 1 T. chopped cilantro – but that takes more time and creates a little mess.

I use this easy guacamole on so many things: toast at breakfast, on scrambled eggs, with peel and eat shrimp and the list goes on... So easy and oh so good!!!
